

- 1 4) The only reason she has had anything to do with the United States is her incredibly profound  
2 love for her son, her only remaining child out of her three biological children. That is the reason  
3 she has been visiting the USA, but otherwise she is very close to her home and family in India.
- 4 5) On 6/13/ 2019, when I visited her at "Paramount Shelter Home", I was terrorized to see her  
5 covered in gruesome blisters, delirious & running a fever, and neglected to die in the filthiest  
6 conditions possible. Paramedics were called due to my intervention, and their statements and  
7 medical evidence corroborate that she was not receiving any nutrition or medicine for days. She  
8 had lost 20lbs of her weight, and her glucose was over 400, as was every other of her vitals.
- 9 6) Fearing that she would be returned to Paramount, I filed a complaint with Seattle Police on July  
10 3<sup>rd</sup> 2019. The next day my brother and I spent several hours with her without any incident, but  
11 on the day after that, our visits were abruptly stopped with some ridiculous allegation of a  
12 floating substance found on her food- which was a pathetic attempt at inventing an excuse.
- 13 7) Since that day, for almost 5 months to date, neither I nor any of my family, or any of her local  
14 friends, have been allowed any visits or contact (even by phone) with our mother. I stayed in  
15 USA for several weeks hoping to see my mother, but has now had to return home to India to take  
16 care of my other commitments. I was never allowed to visit my mother after July 5th, and I had  
17 to leave in terrible pain and emotional agony not knowing if (or when) I could see her again.
- 18 8) There is absolutely no logical or legal reason to continue this torture for our poor mother or to  
19 our family, as she no longer has any reason to be in the United States if she is not permitted to  
20 live with her son, the only motivation for her to even be in the country in the first place.  
21 Therefore, I wish to bring her back to live the rest of her life in peace and happiness spending  
22 time with her most loving family in India under the best medical care possible, as she desires.
