I closed that account today per the court order as Omanas was also listed as an owner on it. I also closed her personal account, that you put into the negative, and her savings account. I withdrew the funds and they are being held in a blocked account. Seeing you withdrew all of the funds out of her personal account that you were NOT a signer on (roughly \$30,000) AFTER your mothers stroke I will be asking the court for direction.

Sorry for any inconvenience but I'm required by the statute to marshall and protect any assets that could belong to my client. Seeing she had assets at the time of her stroke and even deposits in 2018 that you withdrew I must report it all to the courts and any other authorities I'm required to report to.
