Alexandra

I think Ashley should do caregiving when she's home while I do other things like personal organizing and cleaning. She has intensive care experience.

12:14 PM

Even if it's just for the rest of the week.

12:14 PM

Ashley left. Think I might have heard her say that she might be going to Redmond house. Nothing is working.

12:33 PM

Did my mom get morning food and meds?

12:34 PM ✓

I showed you how to do without a blender yesterday

12:35 PM ✓

No. This is what I am talking about. I have been having problems with it this whole time

12:35 PM

I am still trying

12:36 PM

Alexandra

Did you unclamp the tubes

1:11 PM ✓

I don't know what else to do. I had a small towel down but while I was trying to transfer the food from one bag to the next some spilled onto the carpet.

1:12 PM

The food is not moving even after I try to force it to move by squeezing the tube. Yes both.

1:12 PM

I could put it in the fridge in a container.

1:12 PM

There are four bags left. I still have the blender that I am borrowing from the neighbor if you want me to make another batch but I don't know.

1:13 PM

Let me know what you would like me to do next, whether it be to try to make a new batch using the blender or to put the food in the fridge and continue w

ith other tasks. 1:16 PM

Along with cleaning the carpet from where the food spilled 1:16 PM

Continue other tasks please. 1:16 PM ✓

I don't think I should be doing caregiving after this week 1:17 PM

I also think that Ashley should do it when she is here. Any word on Jenny's possible return? 1:17 PM

There's probably a company to come over to help. Would hope that they have food too.

1:27 PM

Wished that I would have been able to help with that. I am very sorry that I couldn't.

1:51 PM

Did you first boil the water and the meds?

2:38 PM ✓

Yes but apparently not enough.

2:45 PM

I showed you how it's done. If you follow the instructions there's no need for a blender and it doesn't clog. Something was not right I will figure it out when I get home

2:49 PM ✓

Usually a clog means the meds didn't get dissolved properly in boiling water first. That's what I suspect.

2:52 PM ✓

Need a pill crusher and I think that a blender would be good just in case. I was able to borrow the neighbors pill crusher to be used at dinner time toda
