I. QUESTIONS PRESENTED

1. Should the Court assign counsel for an innocent, upstanding, highly contributing immigrant scientist (and his sister and uncle in India – the other two petitioners) as well as his three businesses (that are currently in hiatus and financial ruin given the fact that the owner/ chief operating officer petitioner Jayakrishnan Nair has been disabled and staying at a nursing home, as well as the fact that businesses cannot be represented by pro-se parties, while the businesses have inherent value of several millions if not billions as can be seen from Appendix 5), who has become disabled from a recent heart attack requiring 7 stents, kidney problems, C-PTSD & severe depression due to one of the worst barbaric persecution of innocent humans in the history of the American judicial system since the Salem witch trials, wherein his hemiplegic (yet verbal, alert and cognizant, able to hold articulate and deep conversations, and had retained full control of her right hand so also able to read and write) mother was held **hostage incommunicado at a secret location for nearly five years** (wherein she was never allowed any contact with any family despite being known to be **pleading in tears every waking minute** to meet her children) and **tortured, blinded on the right eye, scalded with boiling water when she begged for water after being abandoned to die of dehydration**, made catatonic with the muscle relaxant Dantrolene Sodium (so she cannot scream) and presented to criminals in a homeless shelter as a sex toy wherein **her lips were parted and bleeding all over from perverts molesting and assaulting her**, diapers never changed so she was **mired in her own excreta for days** [see photos in Appendix 4-E], all in violation of various treaties that USA is a party to {including Indo-USA treaties- see The Treaty of Peace, Friendship, and Commerce between the United States and India (1950) & U.S.-India Social Security Agreement (2008), various United Nations agreements that both USA and India are party to – for e.g. see Article 13 of the Universal Declaration of Human Rights, the Vienna Convention on the law of treaties (1969), et al}, various Federal

statutes such as the 42 U.S.C. § 1983, 42 U.S.C. § 1985, 28 U.S.C. § 1332 as well as Constitutional rights (5th, 14th and 8th amendments) **ONLY FOR THE DASTARDLY PURPOSE** of stealing from his entirely self-built \$10 Million+ estate in which she had no standing (as she never made a penny in the USA nor transferred a penny to USA as a tourist on a visitor visa who was only in the country to spend time with her beloved son), before **she was brutally murdered by her State-appointed guardian (appointed pursuant to a settlement – as can be seen from the safe website www.saveomana.in) as soon as the last asset from her son’s estate (a 6-bed luxury golf course home) was seized and sold?**

2. Should this Court, the highest authority of the land for safeguarding the integrity, credibility and enforceability of the Federal Statutes, Treaties and the Constitution, **act on its own commission *Sua Sponte***, given the circumstances and evidences in this matter irrefutably point to the fact that the legal system in Washington State has been gravely compromised due to the most abominably **shameless racketeering, corruption and naked self-dealing** by certain vilely unscrupulous elements infesting the courts who have partnered with **convicted pedophiles and felons for stealing FIVE million-dollar properties** (as documented in this complaint 2:23-CV-00454), as well as the most terribly nauseating incompetence and racist schadenfreude of unelected DEI-hires posing as “judges” who are merely clueless puppets controlled by these monsters – all of which have led to a highly volatile situation that already flared up recently into total anarchy (the violent creation of the Capital Hill Autonomous Zone in May 2020 wherein the Seattle police headquarters was invaded and set on fire by protestors demanding an end to the farcical, racist charade going on in the pretense of “courts”) and is still fuming as only a matter of time before a **second civil war breaks out**, given the fact the minorities have no police protection or legal protection for their civil or constitutional rights?

3. Should this Court reprimand the Ninth Circuit for its partisan-politically motivated, deliberately shambolic (mis)handling of this appeal, wherein **SIX MOTIONS including TWO EMERGENCY MOTIONS** (Docket #s 14, 17, 21, 23, 27 & 28 on Appeals Case# 23-3682, also attached here as Appendices 2A-F respectively) of **extreme time sensitivity**, which were all noted circa April 2024 (#23 & #28 under Circuit Rule #27-3 for **immediate relief**, supported by declarations in #22 & #30 – Appendices 2-G & 2-H respectively) to **prevent destruction of evidence of murder & desecration of human remains** [Appendices 2-A, 2-E & 2-F] as well as the **destruction of a biotech corporation** professionally **appraised at \$12.8M** (whose labs with nearly a **million dollars’ worth of equipment have been invaded by career criminals**- Appendix 2-D), were **sat upon for almost an entire year** without any response before issuing a 1-page dismissal (#32, Appendix 3-A), presumably for the **purpose of interference with the 2024 Presidential Election**, as can be seen from the facts noted in #39 (Petition for En Banc Rehearing- Appendix 3-B) and #43 (Motion for Stay pending Writ of Certiorari – Appendix 3-C); as well as the fact these two timely and properly noted actions were “ruled” by email (Appendix 3-F) by the clerk’s office to not be noted for Court’s consideration in **blatant violation** of Circuit Rules and Federal Rules of App. Procedure (#36: Correspondence to Clerk in Appendix 3-E), despite which a mandate (#42 – Appendix 3-D) was untimely issued, as well as transfer this matter to a different circuit (such as the 5th circuit) given the prejudice of the ninth circuit and interest to protect the mostly Democratic-run courts such as the WA-WD district?

4. Can **a convicted real estate fraudster & felon** (Gary Culver) who has served years in prison for real estate title theft and forgery be allowed to clandestinely record an illegal, laughably farcical “trustee sale” by his own attorney (Gary Krohn., who is currently personal estate trustee and executor of will) at the height of the pandemic

violating all the CDC, federal and state moratoria, in violation of almost all state statutes and claiming to be held at the **garage of his home** (while court houses were closed due to COVID19) where he is the only bidder, without paying any of the senior liens while he is in third lien position, and for a tiny fraction (<20%) of the true market value of the two parcels, and break-in and invade the properties as well as burglarize over a million dollars' worth of business and personal valuables contained therein, ignoring the fact the matter had **already been removed to Federal Court?**

5. Can evil, psychopathic serial killers Ms. Channa Copeland and her attorney Ermin Ciric, who are well known to be responsible for the murders of at least five disabled yet fully alert wards inhumanly kept in illegal isolation as hostages at secret locations incommunicado from all their families (eg: Ms. Key Phillips, Ms. Omana Thankamma and many others) **by stopping their medications & nutrition** despite the **wards begging to be allowed to live and to meet their children** & relatives- crimes for which the state has recently (albeit too late) already canceled psycho killer Ms. Copeland's guardianship license (See State of Washington Vs Copeland : 24-2-06873-8: a state civil action) be allowed to evade criminal penalties for these **extra-judicial executions** for millions of dollars in probate fraud, as is currently going on?

6. Can a **notoriously corrupt**⁵⁸ **unelected bureaucrat** "Commissioner Judson" unilaterally wrestle jurisdiction on a TEDRA case through an illegal "Order retaining Jurisdiction" [Appendix 4-J] away from Federal Court, despite a Notice of Removal already having filed and the case is already assigned to a Federal Judge [*"The filing of a removal petition terminates the state court's jurisdiction until the case is remanded, even in a case improperly removed"*]. See Maseda v. Honda Motor Co., Ltd., 861 F.2d 1248, 1255 (11th Cir. 1988), citing Lowe v. Jacobs, 243 F.2d 432, 433 (5th Cir. 1957). "*Any action taken by the state court after the filing of the removal notice with the state clerk is*

void ab initio". See Nat'l S.S. Co. v. Tugman, 106 U.S. 118, 122 (1882); E. D. Sys. Corp. v. Sw. Bell Tel. Co., 674 F.2d 453, 457 (5th Cir. 1982). "*The question of whether a removed case should be retained or remanded is for the federal court to decide*". Id. at 457-58.], only so he can order the corrupt sale of a \$1.6 Million Golf Course Mansion to a close relative [Appendix 4-K] of the guardian's agent for half-price, in an **obviously fraud binami paper transaction without paying off the mortgage lien or making any transfer of funds**, before immediately turning around and selling it within days in open market for \$800k more (only then paying mortgage), before then **immediately murdering the ward who was being held hostage, as was already predicted by her family to Federal Court in [4-I]**?

7. Can an HOA attorney conduct Sheriff sale of a \$600K home for his agent, a convicted pedophile, for \$32K, despite the fact the fraudulently obtained Ex-Parte judgment for \$14K (without any service or notice while the homeowner is out of state) had already been fully paid off (through two wires totaling over \$19K to his trust account) days prior by the homeowner, and not a penny is owed in dues to the HOA?

8. Can an HOA attorney conduct Sheriff sale of a \$1.6M mansion despite the fact the trivial \$20/mo dues are not only current but even prepaid for the next two years by the homeowner, claiming legal fees for representing for the HOA (albeit the dues are not only current but even prepaid for years) in a suicidal chapter 11 bankruptcy that the homeowner was cheated into filing on his \$4.7M net-worth rich estate that never needed any bankruptcy protection under a bait and switch scam by a "free" network attorney who then colluded with HOA attorneys for farcical frivolous litigation?

9. Is it not insanely farcical when a corrupt judge "finds" that **\$90,000 in legal fees is "reasonable" to "collect" \$55**, even when the trivial HOA dues are current?

10. Is it not criminal judicial fraud that needs to be investigated by the FBI and the DoJ when a so-called “Commissioner” allows the Sheriff sale of a \$2 Million mansion to an agent of that Commissioner for \$16K on alleged dues of \$20/mo for a shell HOA that **does not even exist in the first place & has no operations or accounting?**

11. Given the fact that King & Snohomish County Superior Courts’ probate and Ex-Parte division have devolved into a nauseatingly corrupt self-dealing farce, i.e. a RICO controlled by serial killers, mortgage fraudsters and pedophiles, wherein the Constitution, federal treaties & statutes, case law and civil rights are most flagrantly violated *a la* nothing more than complete jokes, should the Supreme Court reestablish the rule of law and the Constitution by mandating the FBI and the DoJ to investigate these obvious RICO abuses of Court powers for stealing millions of dollars and homes?

12. Are these **not blatant acts of sedition and treason** by the representatives of the State of Washington to hold a legally visiting tourist mother from India (only in the USA to spend time with her beloved son) **hostage incommunicado for 4+ years** at a **secret location in solitary confinement** - wherein she **was scalded with boiling water, tortured and blinded** (in violation of the eighth amendment despite the fact she is not even accused of any crime)- despite **her begging to be allowed to return to her homeland and to be allowed to meet her children and family, and also despite the fact her family had already made all arrangements for her repatriation and care in India** [Appendix 4-L: letter from an Indian hospital], and in blatant violations of various international human rights (eg: Vienna & Geneva Conventions, ICPR-1966 etc.), and bilateral Indo-US treaties mandating her right to return to her homeland, only for the **purpose of RICO-infested “courts” to seize several millions of dollars and a \$1.6M mansion** from her son’s wholly self-built

estate and business accounts in which the mother never had any standing (given she never earned a penny in USA nor transferred a penny from India), before **cruelly murdering her (despite her desperate pleas to be allowed to live)** by withholding medications, and **secretly conducting her cremation hours before a private autopsy that the family had defrayed for** – all acts of psychopathic evil directly undermining the rule and credibility of the Constitution and Federalism (to protect which the SCOTUS should initiate a DoJ and FBI inquiry into these farcical TEDRA seizures of properties and HOA sheriff sales, and allow counsel to represent Mr. Jayakrishnan Nair so he can retrieve his five homes and get justice for Omana?)

PROLOGUE:

Given the fact that this petition depends on dozens of hyperlinks as footnotes as evidence, which are all safe sites, as well as the fact that as pro-se petitioners are not allowed to upload soft copies to the Supreme Court's website (but only send by mail), we are humbly begging the Honorable Judges of this Honorable Court to visit the secure site <https://www.saveomana.in> to download an electronic copy of this petition so links are easily accessible. Further, the gallery section provides valuable evidence of Omana's condition, the 5 homes worth several millions of dollars being criminally invaded and stolen through judicial corruption and fraud despite the "judgments" are patently illegal.

IV. PETITION FOR WRIT OF CERTIORARI

Plaintiffs Jayakrishnan Krishnan Nair (medically disabled – see Appendix 4-A), Rajakumari Susheelkumar (Indian citizen whose B1/B2 visitor visa has expired – see Appendix 4-B) and Jayakumar Sundaran Nair (Indian citizen who has never set foot on USA), respectfully petition this Court for a writ of Certiorari to review the judgment of the United States Court of Appeals for the Ninth Circuit.

V. OPINIONS BELOW

On 3/24/2023, Plaintiffs brought this complaint *pro se* to Western District of Washington (2:23-CV-00454-TL) to save Ms. Omana Thankamma's life, seeking to repatriate her to India, and to restore title and possession of five properties and valuables totaling over \$10M that had been stolen by abusing judicial processes through perjury and corruption in the State Courts that are known to have become RICOs. One of the plaintiffs, Jayakrishnan Nair, had been hospitalized due to Cardiac Myopathy from the stress of the situation, and was therefore unable to sign the original complaint. Five days later, he filed a motion (Docket #5) for application for counsel. The Court took no action for about four months, and Hon. Judge Tana Lin finally entered an order denying the application on 7/14/2023, presented herein as Appendix 1-A, citing certain defects on the complaint, and an order to show cause to avoid dismissal if the defects are not cured by 8/14/2023.

On 7/31/2023, Omana was savagely murdered (as predicted: Appendix 4-I, Pg2), immediately after the heist of the last asset, a \$1.6M 6-bed mansion from her son's rich estate was completed. She was never allowed to meet her family in nearly five years, having been held in illegal solitary confinement as a hostage for extortion.

Uncontrollable in grief thereof, plaintiffs were unable to meet the deadline, which was within two weeks from this catastrophe, from the order to show cause to amend the complaint to cure defects from 1-A. Hon. Judge Lin therefore dismissed the complaint on 8/30/2023 [Appendix 1-B] for failure to show cause as directed.

Plaintiffs filed a timely motion for reconsideration detailing their tragic plight and extreme bereavement, along with an amended the complaint that cured the defects, on 9/13/2023 (Dkt #15). However, Judge Lin refused to retract her earlier dismissal or to appoint counsel (Appendix 1-C), as the plaintiffs again pleaded for, for the sake of manifest justice, as in their sad situation they were absolutely not in a position to pursue this matter pro se. Plaintiff Jayakrishnan Nair had relapsed on his medical condition following his mother's murder, and other plaintiffs could not even legally enter the United States as Rajakumari's visa had already expired.

Plaintiffs duly appealed to the Ninth Circuit, and brought six motions, including two emergency motions, to allow family to repatriate Omana's remains to India so a proper Hindu funeral can be held per her last wish (Appendix 2-A), to appoint counsel (2-B), for judicial notice of the crimes and scams being perpetrated against them (2-C), for restoring possession of the offices and biotech labs for their three businesses that had been invaded by career criminals and for ordering an FBI investigation (2-D), for sanctions against shysters who were threatening to desecrate Omana's remains to destroy evidence of her murder (2-E), and another emergency motion (2-F) to allow the repatriation of her remains for a funeral and for an FBI investigation into her murder and torture in isolation for nearly 5 years.

These motions were duly supported by declarations by her children Jayakrishnan (2-G) and Rajakumari (2-H). The Ninth Circuit did not even respond to these emergency motions filed under Circuit Rule 27-3 for immediate relief, for ALMOST AN ENTIRE YEAR while family waited in the most extreme agony.

On February 20th 2025, after a delay of almost a year, a panel consisting of three Democrat-appointed judges in the Ninth Circuit entered a single page order (Appendix 3-A) dismissing the appeal as frivolous, and the six pending motions as moot. Plaintiffs filed a timely Petition for En Banc Reconsideration (3-B) as well as a Motion to Stay Pending Writ of Certiorari (3-C). Despite the above, the clerk issued an untimely and illegal mandate (3-D). Plaintiffs protested by filing a Correspondence to Clerk pointing out this issue (3-E). They also emailed the clerk's office after no response was received, but received a reply (3-F) that the Clerk has declined to note either the Petition or the Motion for the Court's consideration, in blatant violation of Circuit Rules and the Federal Rules for Appellate Procedure.

VI. JURISDICTION

The Ninth Circuit entered a judgment denying review of the decision by District Court Judge Hon. Tana Lin to deny plaintiff's application for counsel and seeking other relief, on February 20, 2025, as well as dismissed six motions that were pending for almost an entire year as moot. The petition is timely filed pursuant to Supreme Court Rule 13.1. This Court has jurisdiction under 28 U.S.C. § 1254(1).

VII. CONSTITUTIONAL AND STATUTORY PROVISIONS INVOLVED

Omana's illegal solitary confinement for nearly five years without any access, even by phone, with any of her beloved family members including her two devoted children, and the torture she endured – which includes deliberate blinding of her right eye, scalding of her body with boiling water when she begged for water after having been abandoned to die of dehydration and mired in her own excreta in a homeless shelter without any medically trained staff (see the gruesome pictures in Appendix 4-E) wherein she was most horrifically sexually abused by criminals, vagabonds and drug addicts that lived in that terrible hellhole- all tantamount to the very textbook definition of violation of Federal Civil Rights (42 U.S.C. §1983), Americans with Disability Act (42 U.S.C. §12101), Section 504 of the Rehabilitation Act of 1973 (29 U.S.C. §710) prohibiting discrimination against a disabled person, and above all Constitutional Rights including Eighth Amendment against cruel and unusual punishment, the horrific details of which can be seen from the original federal complaint the family filed: 19-CV-01296-MJP¹.

Despite receiving Federal assistance under CDC programs, Washington State DSHS and state-run facilities such as Paramount Shelter Home and Harborview Medical Center, as can be seen from that complaint, have discriminated against Omana, in blatant violation of 29 U.S.C. §794. Moreover, the pertinent federal regulations for implementation of the ADA specifically provide that “[n]othing in the Act or this part authorizes the representative or guardian of an individual with a disability to decline food, water, medical treatment, or medical services for that individual.” (cf. 28 C.F.R. Ch. 1, Subpart B, §35.130.)

¹ https://bit.ly/SCOTUS_001

Her shocking plight, not being allowed to return to her homeland despite plaintiffs repeatedly petitioning State and Federal courts to allow her repatriation as well as making all arrangements including medical flight and a declaration from a hospital in India², is also a blatant violation of the international treaties and obligations that the USA is a signatory to, such as the 1948 Universal Declaration of Human Rights, 1949 4th Geneva Convention, 1966 International Covenant on Civil and Political Rights, 1969 Vienna Convention etc. Defendants' actions violate the fundamental tenets of society and human conscience. An old sick quadriplegic helpless woman in her last days was being held against her wish in solitary confinement, despite her tearful longing to see her children and be at her home. This is **evil by its very DEFINITION**, and it does not take any laws or statutes to determine so, as even animals can recognize a dying mother's wish to be loved.

Omana was a pious Hindu, and practiced daily "pujas" and rituals at home- all of which were obstructed after the guardian placed her in most cruel illegal solitary confinement at a clandestine location. **Even her last wish for a Hindu funeral was denied and her remains were secretly cremated:** clearly a criminal act of **desecration of human remains in a bid to destroy evidence** of her murder, on the **SAME DAY & just hours before a private autopsy was scheduled** and paid for (Appendix 4-G: proof of \$5500 payment to forensic pathologist Dr. Lindsay Harle). These monstrosities tantamount to a veritable confession to her murder to anyone with a brain; also as clear violations of the Civil Rights of Institutionalized Persons Act (42 U.S.C. §1997), as incorporated by reference in Religious Land Use and Institutionalized Persons Act ("RLUIPA", 42 U.S.C. §2000cc-1).

² https://bit.ly/SCOTUS_002

Further, many of the judgments against the Family were taken ex-parte without any service, thereby in violation of due process clauses in the Fifth and Fourteenth Amendments. The perpetrators conspired to commit such heinous evil against Plaintiffs' innocent family and businesses for the criminal purposes of self enrichment and psychopathic racist schadenfreude, in clear violation of 42 U.S.C. §1983 and 42 U.S.C. §1985. Further, District Courts violated 28 U.S.C. §1331 & §1332 rights by repeatedly remanding the guardianship back to state probate court, which is a RICO operating under the guise of court, and therefore falls squarely under the OCCA Act of 1970, and 18 U.S.C. §1961-1968. Further, the fraud TEDRA brought on behalf of Omana by Ms. Copeland to steal from Krishna's wholly self-built estate falls under 28 U.S.C. §1350, as a civil action by an alien.

VIII. STATEMENT OF THE CASE

1) Background & Identity of Petitioners

Petitioner Jayakrishnan Krishnan Nair³ (hereinafter, “Krishna”) is a disabled [Appendix 4-A: Determination of Disability by Washington State DSHS] scientist spoken for herein by his relatives and co-petitioners in India- sister Rajakumari Susheelkumar (hereinafter, “Raji”) and uncle Jayakumar Sundaran Nair (hereinafter, “Sundaran”)- who has prosecuted 21 biomedical GRANTED patents (Appendix 5-C: Ratner Biomedical’s Series A Outline); published papers (through his graduate research funded by NASA-JPL) in rocket science⁴, Robotics⁵ and Smart Computer Networks⁶; an Erdos #2 mathematician⁷; a science educator and author⁸; and also a highly successful biomedical, software and real estate serial entrepreneur who had built a \$4.7M net worth estate by age 35. After finishing MS from Univ. of Massachusetts-Amherst *summa cum laude* (4.0 GPA), he was hired to Microsoft, where he climbed the corporate ladder quickly to be managing a large team of 26 engineers before even turning 27. In short, he was a living embodiment of the “American Dream” until becoming a victim of multifarious nefarious judicial frauds such as bankruptcy fraud, HOA fraud, mortgage fraud and probate fraud.

Within that time, he had also constructed five new high-end mansions in new communities in the eastside of Seattle, which he converted to AirBnb premium vacation stays by heavily investing in expensive tasteful upgrades (such as marble

bathrooms, exquisite imported furnishings and art, grand pianos, massage chairs, home theaters etc, as can be seen from their beautiful pictures^{34 35 36 37 38}). These luxury homes with their upgrades and top-class furnishings have now appreciated to be valued much over \$10 Million. He also completed a part-time MBA⁹, also with honors¹⁰, from the University of Washington- Seattle, wherein his exceptional graduating merit was recognized with an honorary admission to their PhD¹¹ program. Krishna also moonlighted to form a biotech startup that exclusively licensed¹² [Appendix 5-A: exclusive license] paradigm-shifting biotech research^{13 14} from the Johns Hopkins University¹⁵, for which he built enormous value¹⁶ through hiring an amazing team of venerated scientists, surgeons and professors [Appendix 5-D: biographies of Ratner Biomedicals' leadership] and prosecuting 20 GRANTED international patents¹⁷, currently appraised at \$12.8 Million¹⁸ [Appendices 5-B & 5-E: Ratner Biomedical's brochure and executive summary], and poised to be valued over \$750 Million following the FDA 510(k) approvals¹⁹ for its regenerative neurosurgical tools that can make functional recuperation from bullet wounds and motor accidents have far superior prognosis. These technologies have enormous military applications [Appendix 5-C: Outline] and also to help millions of patients.

His mother Omana Thankamma, a retired accountant from a public utility company²⁰ in India, had been visiting her beloved only son for six months every year [Appendix 4-C: Omana's passport and visa] without fail since 2002 on a 10-year tourist B1/B2 visa, which she extended for another 10 in 2012. She spent 6 months (summers) with Krishna, entirely at his expense²¹, and other 6 (winters) with her daughter Raji in India - a routine she continued for 13 years until 2014 when a stroke disabled her (hemiplegia) albeit it did not affect her cognition or language, and she remained as smart and talkative as ever. Krishna wrote to USCIS to extend her I-94's return date, which was graciously approved.

However her status as a non-immigrant alien made her ineligible for any state benefits such as Medicare/ Medicaid, and therefore as an ideal and devoted son Krishna quit his highly gainful IT job to become a stay-at-home caregiver for his mother while working from home on his biotech startup. For sustenance, he converted the bedrooms in his five homes into premium luxury accommodations that he rented through www.airbnb.com as 36 listings²², for which he hired a crew of a hostess²³ and maids. He also hired a Certified Nurse²⁴ to be alternating shifts with him to take care of Omana, another Certified Nurse²⁵ as a respite, as well as a team of medical professionals he hired out of pocket for quotidian therapies, as can be seen from [Appendix 4-D]. Further, he modified his primary residence to suit all his mother's needs (Hoyer Lifts, Hospital bed, ramps etc) and tastes to give her all the happiness money can buy²⁶. It is hard to imagine what more an ideal, role-model son

could do for his mother who was stuck in the USA without any state assistance. He also enrolled her into Molina Health Insurance through Obamacare, and had diligently been paying the \$1000+/mo premiums for several years. Omana's prognosis improved due to the devoted love and care Krishna provided. Raji, a retired media²⁷ executive, also took a tourist visa and visited her brother and mother several times from 2012-2019 [Appendix 4-B: Raji's passport and visa].

Everybody who knows Krishna unanimously agree that he is not only an ideal and role-model son who made incredible sacrifices and efforts for his mother's well-being, but also an ideal and role-model merit-based legal immigrant who made immense contributions to the intellectual and economic fabric of society through building THREE multi-million dollar businesses that provided employment to dozens of people, as well as prosecuted 21 epoch-making biotech patents that have the potential to paradigm-shift the way severed nerves (such as from bullet wounds and accidents) are treated¹⁸. His contributions⁴ to NASA's JWST in enhancing its fault tolerance from cosmic ray bombardment may one day help humanity to find alien life. His papers on intelligent networks⁶ and robotics⁵ have found tremendous applications, and his contributions for advancing science are noble and laudable.

As Prof. Michio Kaku points out²⁸, the greatness of the United States is largely founded on the intellectual horsepower of scores of highly qualified scientists and entrepreneurs who have legally immigrated to this country and built technologies and companies that make America great. Krishna's merit has secured him a place in that gilded list of cynosures such as Albert Einstein, Sergei Brin and Elon Musk.

2) Cajoled into filing a Suicidal Bankruptcy on a rich, \$4.7 M Net Worth Estate

In 2015, one of his five homes, in Mill Creek, WA, got a foreclosure notice posted on the door by an unscrupulous lender (First Tech Credit Union) who was trying to double-dip on a loan that had been charged off in 2008 during the national subprime crisis, without following any due process, after they had accepted the federal bailout money back then for the same. After the property prices rebounded, this lender tried to illegally resuscitate a charged off loan, which had been paid down to \$72K back in 2008. Krishna was a member of ARAG legal insurance through Microsoft, and so he was assigned a “free” network attorney Mr. Richard Symmes, who advised him that many of his Microsoft clients were experiencing the same problem with First Tech, and he could eliminate or get them to write off the loan for pennies on the dollar, as he was able to achieve for his other clients, by stopping the sale through a bare-bones chapter 13 Bankruptcy filing. Krishna was petrified, as he enjoyed a near-perfect credit (which had enabled him to make all these home purchases) and had never missed a payment all his life. Besides, he held over \$300K in liquid assets and over \$6M in real estate and capital assets, of which only \$1.3M was encumbered in secured loans, giving him a net worth north of \$4.7M. He was a highly successful and rich entrepreneur who never needed any bankruptcy protection whatsoever for his cash-positive estate, as any reasonable person can easily see from the farcical accounting on the bankruptcy case docket.

However, Mr. Symmes vehemently insisted that preserving capital was prudent given that he was privately taking care of his sick mother at home without state assistance, and Krishna was finally lured into signing the BK after a lot of coercion from Mr. Symmes. A few weeks later, Mr. Symmes told him that since his secured debt total exceeded a certain statutory limit of \$1.1M, he had to convert the BK into a Chapter 11, as a procedural matter. Unbeknownst to Krishna at the time, ARAG

only covered Chapter 13s, as Chapter 11 was apparently considered “business bankruptcy” - which Mr. Symmes knew all throughout as a professional BK attorney, making this a classic bait-and-switch scam. Mr. Symmes then colluded with the HOA attorneys for his homes (albeit the trivial \$20/mo dues were prepaid for years in some cases, while the HOA did not even exist in another case) for driving up frivolous, fraud litigation on a rich estate that never had any reason to be in bankruptcy court in the first place. The newly appointed tyro BK judge Chris Alston was deceived hook, line and sinker by these shyster charlatans into further converting the \$4.7M estate into a Chapter 7, through perjuries, while Mr. Symmes deliberately failed to upload the Monthly Operating Reports that Krishna had been sending him diligently. Krishna finally had enough and fired Symmes, and replaced him with Ms. Sashi Vijay, who advised him that he was a victim of heinous bankruptcy fraud, and filed a debtors objection²⁹ against Mr. Symmes’ fraud fee application, as well as introduced him to attorney Braid Waid for prosecuting a legal malpractice claim³⁰. Further, per her advise Krishna dismissed the spurious Bankruptcy³¹ by paying off \$103K³² to the Chapter 7 trustee [4-H], albeit he only owed 17K in unsecured credit card debt, and all the remaining \$86K were fraudulent fees to the trustee, her shyster lawyer Mr. Rory Livesey, scammer Mr. Symmes and rest in various spurious & fraud claims such as a \$5K penalty to King County for simply renting a bedroom in his home, albeit it was permitted.

Other charges included 30-year sewer capacity prepayment for these homes that nobody ever pays upfront as usually every homeowner pays them annually. Further,

he colluded with a non-paying tenant to keep pipes open 24X7 so he could pay out a \$10K water bill and charge another \$14K as his fees for time spent on this matter. Majority of the charges in [4-H] are invalid, yet contesting them would entail paying Mr. Livesey attorney fees at \$650/hour, making it cheaper to pay off. These were all fraud propped by Mr. Livesey to justify ~ \$60K in fraud fees for himself and Trustee. This farcical case is a permanent blot to the U.S. judiciary.

3) A Spate of FOUR Fraud HOA Sheriff Sales through Barratry and Perjuries

Krishna paid off the \$103K to these shameless scammers to dismiss³³ the fraud Bankruptcy that he had absolutely no rhyme or reason to be in, and got back his remaining \$4.3M estate [Appendix 4-H], and thought the nightmare was finally over, but it was just the beginning since four of the HOA attorneys who colluded with Mr. Symmes now brought fraud HOA sheriff sales in state court claiming that he owed them hundreds of thousands of fraud attorney fees for representing the \$20/mo HOA in the fraud BK that he never needed in the first place, and also despite the fact not a single penny was owed to these HOAs as the trivial dues were either prepaid (in one case the HOA did not even exist and had closed down years ago) –proving these are all criminal scams abusing the incompetence of DEI-infested state courts as well as the corruption of some of the “judges” who allowed such travesty. Two of the homes – a \$1.6M, six-bed golf course mansion³⁴ in Snoqualmie, and a \$850K cottage home³⁵, also in Snoqualmie, were both “sold” to a **convicted pedophile** named Alex Toth^{50 51}, who has partnered with HOA attorneys for such scams, for \$28K and \$32K respectively – i.e. less than 4% of market value. Please note in both cases, not a

³⁵ https://saveomana.in/?bwg_gallery=6813-se-gove-st-snoqualmie-wa-98065

SINGLE penny was owed in HOA dues- it was even prepaid for years. A third, a 4000sqft \$2M mansion³⁶ in Mill Creek, was “sold” to another career criminal Paul Lee for \$40K despite the fact the HOA had shut down years ago and none of the homeowners were paying any dues. Each of these four sheriff sales is purely criminal abuse of process and evidence of the RICO activities in the county courts to usurp millions of dollars in real estate.

A fourth, his \$1.1M primary residence³⁷ in Redmond, was “sold to self” by Douglas Cameron for \$79K. All these sheriff sales were purporting to extract attorney fees for \$20/mo HOAs’ participation in the Chapter 11 bankruptcy, albeit the dues themselves were already prepaid and any ex parte default judgments paid off. Despite this, all of Krishna’s efforts to judicially restrain these sales were thwarted due to corruption of unelected, shameless bureaucrats (such as the notorious “Commissioners” Henry Judson⁵⁸ and Tracy Waggoner), who have both partnered with HOA and Probate law firms for self-dealing of millions of dollars in home equities, and specifically targeting vulnerable communities such as people of color or foreign origin. None of these are civil matters, but blatant RICO activities.

4) \$120K Hard money loan from a convicted Felon & ongoing Home Invasions

Washington State allows homeowners to redeem the homes subjected to such sheriff sales. Krishna was made to pay \$93K (entirely in fraud attorney fees) to Douglas Cameron for redeeming his \$1.1M primary residence in Redmond, as well as \$120K to Dainen Penta for redeeming his \$1.6M home in Snoqualmie Ridge, again entirely in fraud attorney fees despite the fact the \$20/mo dues were not only current,

³⁶ https://saveomana.in/?bwg_gallery=13506-34th-ave-se-mill-creek-wa-98012

³⁷ https://saveomana.in/?bwg_gallery=11031-elliston-way-ne-redmond-wa-98053

but also prepaid for the next two years!! In two other cases, despite it being specifically illegal by the statutes, the “buyers” paid off the mortgages and added to the redemption invoices to make it difficult for Krishna to redeem, in order to steal the millions of dollars in locked-in equity. Devoid of all his liquidity from the payment to trustee and the redemptions, and having his hitherto pristine credit toast from BK fraud, Krishna was forced to borrow a \$120K loan from a felon⁵² Gary Culver, who spent years in prison for real estate title theft, and has now returned from prison to form a Mafia with henchmen Dean Kalivas and Gary Krohn to usurp titles from unsuspecting borrowers [Dkt #23]. During the peak of COVID19 when all foreclosures were under state, federal and CDC moratoria, these criminals colored the titles for two properties^{38 37} valued >\$3M, under the pretext of a scam trustee sale wherein Mr. Krohn “sold” these two parcels to Mr. Culver together for \$540K total. Despite Krishna had already paid down the \$120K loan to \$93K and was current on monthly payments, this clandestine “sale” was “held” at “Culver’s garage” (as all the courthouses were closed) at peak Covid. Again, Krishna tried to get police and authorities to intervene, but to no avail. He brought a complaint to quiet title and sought jury trial, but their agent “Judge” Mafe Rajul denied it, and conducted a clandestine bench trial to dismiss it.

5) A neighbor’s misunderstanding leads to a guardianship and extreme evil; blinding and torture; solitary confinement for four+ years and murder

Immediately after the fraud sheriff sale of the \$1.6M, 6-bed home in Snoqualmie, pedophile Toth used a fraud, perjurious declaration from HOA manager Amy Atchison stating the home was abandoned to quell Krishna’s redemption right to

³⁸ https://saveomana.in/?bwg_gallery=8646-230th-way-ne-redmond-wa-98053

steal the \$1.4M net equity. Krishna's real estate attorneys asked him to move into that home along with his paralyzed mother, CNA Ashley Redican and maid Alexandria, to prevent the home from being seized and sold. The home was being rented to NONE OTHER THAN THE FEDERAL COURT CLERK OF WA-WD Hon. WILLIAM MCCOOL and his family for the period it was falsely stated under penalty of perjury to be abandoned, and therefore his redemption rights were restored but not before a trivial incident on March 12, 2018, when the maid went to a neighbor to borrow a blender and somehow all hell broke loose, as can be seen here³⁹. Despite a sworn statement⁴⁰ from certified nurse⁴¹ Ashley that she was present when Krishna stepped out of the home, WA state DSHS charged Krishna with hiring unqualified caregivers for Omana's care and initiated an adversary guardianship proceeding, which Omana herself vehemently opposed, stating in a Court-ordered mental evaluation that she loved her son and wanted to be home. She also proved her alertness by answering questions about previous American presidents and multiplying two digit numbers by mind that most people cannot do. Krishna had everything humanly possible to take the best care of her.

Krishna's and Raji's attorneys McBroom and Diesen suggested this was a "blessing in disguise" so he can offload the \$15K+/mo expense of Omana's private care at home to State, and that he would be able to resume his IT career he had put on hiatus, by negotiating a guardianship settlement⁴² that would allow Krishna and Raji to visit her every day at a Skilled Nursing Facility within 25 miles of his home. They reluctantly agreed, and this was the worst mistake of their lifetimes as this

⁴¹ <https://bit.ly/3H606Ep>

brought in the rabid, sadistic psychopaths Channa Copeland and her Satan-incarnate attorney Ermin Ciric into their lives, who after finding out Omana had no medicare, promptly discarded her to die in a homeless Shelter⁴³ after blinding her⁴⁴ and allowing her to be tortured and molested by the jailbirds at this horrible hellhole. She was always left mired in her own excreta, as can be seen from the gruesome pictures in [Appendix 4-E]. In retaliation to the family's complaints about her plight and taking pictures, Ms. Copeland blocked all her visitations, and called as well as emailed family in India and told them that she had "ordered her execution by stopping her nutrition, hydration and medication".

Petrified, Raji boarded the next available flight to USA, and sneaked into Paramount shelter home, where she found Omana abandoned by a corner to die. She was begging for water in Malayalam, and had scald marks all over her body, as can be seen from [4-E]. When she begged for water, some rabid animal at the homeless shelter had poured boiling water on her. She had also been sexually assaulted and was bleeding profusely from her private parts. Her lips had been parted wide from forced insertions. Raji called 911 and rescued her, and the 911 paramedics confirmed she was on the verge of death and had not been given food or water or medication for several days, and also provided Raji with medical details.

Kindly peruse this **SECURE** site for all the gory details: <https://saveomana.in/>

Omana was stabilized at Harborview Hospital with just nutrition and medication. Raji collected all medical evidence from the paramedics, took pictures of her mother's pitiable condition, and went to Seattle Police headquarters and filed an attempted murder complaint against Ms. Copeland and the administrator of the

⁴³ <https://saveomana.in/?p=125>

⁴⁴ https://bit.ly/SCOTUS_001

homeless shelter, one Mr. Roger. In retaliation thereof, Raji too was blocked from seeing her mother. Raji filed a Habeas Corpus, and the family also brought a federal complaint⁴⁵, and rejected Mr. Ciric's CR-68 offer to settle for \$1. In retaliation, he took out a fraud default, ex-parte VAPO⁴⁶ against Krishna using an imaginary "process server" Linda Baker who doesn't even exist, and the header on the email on the fraud certificate of service [Appendix 4-F] shows it was sent on December 4, 2019, while "she" has signed under penalty of perjury that Krishna was "served on December 13, 2019 at 11:42PM", i.e. 9 days into the future. How is this absurdity possible unless she has a Wellsian time machine? Further, all efforts to skip-trace this individual has failed, proving the process server is a fictional character invented by psychopath Ciric to take out an ex parte VAPO in defense of his client in the federal complaint. Despite all efforts, the RICO courts refused to reverse this VAPO or allow Omana to be repatriated to India, despite it being her immutable right guaranteed by Indo-US treaties. This nightmare continued for 5+ years, when they abused the corruption of King County probate court to steal his last remaining home before immediately murdering Omana, as petitioners had predicted in emails to FBI⁵⁷ and in motions to Federal Courts [Appendix 4-I, Pg2].

Family requested police to treat her death as suspicious, and albeit the county coroner conducted an autopsy and determined her death as a homicide, the investigation has been extremely lackadaisical and no arrests have been made to date. Further, they refused to provide any information on the cause of death or a copy of the autopsy report to the family, stating it could affect the investigation. It has been almost three years, and still the family has no answers. Therefore, they

⁴⁵ <https://saveomana.in/?p=128>

⁴⁶ <https://saveomana.in/?p=237>

approached the Ninth Circuit, on 2/12/2024, and requested Federal investigation and for FBI to take over the murder investigation from the inept and corrupt state police who are clearly not interested in solving this murder or bringing the evil perpetrators to justice. See Appendices 2-A, 2-C, 2-E, 2-F, 2-G and 2-H for details.

After months of no response from the Appeals court, family finally decided to do a private autopsy and paid \$5500 [Appendix 4-G] to a private forensic pathologist Dr. Lindsay Harle. Her autopsy was scheduled for 5/31/2024, but minutes before the ambulance arrived at the funeral home where she was being stored for months, the “guardian” informed the family through an attorney Ryan Espegard (against who family had sought sanctions- see Appendix 2-E) that her remains were secretly cremated that same morning, in a confession of murder & destruction of evidence.

IX. REASONS FOR GRANTING THE WRIT

As is obvious to any reasonable person, none of these matters are civil, but the most extremely heinous crimes abusing HOA and Probate processes for self-dealing of well over 10 million dollars in real estate equity and the biotech lab equipment, business and personal valuables including over 2kg of Omana's ancestral gold, a Toyota Prius and even Krishna's pet dog Zeus (a K9-trained German Shepherd), as can be seen from Appendices 2-A, 2-C, 2-D, 2-E, 2-F and 2-G. However, many of the shameless & clueless DEI appointees pretending to be police officers and judges in Washington State are grossly incompetent, racist and/or colluding with these rabid predators for naked self-dealing of millions of dollars, relegating these "courts" to despicable RICOs as well-reported⁴⁷ by reputable local media and national experts. Hence the only recourse for petitioners is through intervention from the Highest Court. After the dismissal on 2/20/25, Krishna immediately suffered yet another cardiac relapse and has been fighting for his life at St.Rose-Dominican Hospital in Las Vegas. He has been rendered terribly traumatized with Complex C-PTSD, and is currently disabled [as determined by Washington State DSHS in Appendix 4-A], facing homelessness, and subsisting on food stamps and generosity of his former colleagues at Microsoft, despite being totally innocent. Raji's B1/B2 visa has expired as can be seen from Appendix 4-B and Sundaran never had one. Therefore it is nothing more than an evil & cruel joke to expect the petitioners to somehow remotely prosecute this case from India, as obviously they need counsel for justice.

In *Agyeman v. Corrections Corp. of America*, 390 F.3d 1101, the trial court had similarly denied the application for appointment of counsel, but the Ninth Circuit

⁴⁷ https://bit.ly/SCOTUS_003

Court reversed it, stating that the facts of the case were sufficiently complex that manifest justice required so, as Agyeman, a foreign national from Ghana being held as a pretrial detainee, was educated but “lacked legal training”. Ditto is the case here. Petitioners are educated, but they cannot even enter the country to argue on behalf of Krishna or his 3 businesses, as pro-se parties can only represent themselves. They have no experience in the US legal system. Meanwhile the three companies he built through decades of hard work, potentially worth billions of dollars, are on the verge of collapse due to the dire circumstances expounded here.

In *Gideon v. Wainwright*, 372 U.S. 335 (1963), the court has recognized the importance of access to legal representation in certain civil cases, particularly when fundamental rights are at stake. In *Tabron v. Grace*, 6 F.3d 147 (3d Cir. 1993), the Third Circuit Court of Appeals established a set of factors for determining when a court should appoint counsel in civil cases. These include the complexity of the legal issues, the ability of the plaintiff to present the case, the likelihood of success on the merits, and whether the appointment of counsel would help in making the trial more efficient. All of these factors favor Omana’s family as this is a case of extreme evil being meted out to innocent, helpless foreigners.

In *Farrell v. United States*, 798 F.2d 201 (8th Cir. 1986), the Eighth Circuit recognized that courts have the discretion to appoint counsel in civil cases when the litigant has limited financial resources, and there are exceptional circumstances where the complexity of the case or other factors justify such an appointment. Raji and Sundaran are both retired individuals in India without access to travel to USA, while Krishna is languishing in hospitals and shelters having been deprived of his five luxury mansions and his \$10M+ in life savings, fighting his own death and suicidal ideations from PTSD, and only subsisting on food stamps and other’s generosities- a terrible fall from grace to a highly successful scientist and

entrepreneur who was living the American dream before falling victim to judicial fraud. Petitioners are severely traumatized and depressed from the fate that befell Omana, who cried for every waking minute for the last five years of her life pleading to be reunited with her family, before being most barbarically murdered. If all of this is not the very definition of the most extreme circumstances, what can ever be? Therefore petitioners meet all the criteria for an appointment of counsel, without which their hopes for justice will be extinguished.

Similarly in *Martinez v. United States*, 830 F.2d 965 (9th Cir. 1987), the Ninth Circuit reaffirmed that a district court has discretion to appoint counsel in civil cases, especially when the plaintiff has no resources to retain private counsel, and the case presents significant legal challenges. In *Wilson v. Duckworth*, 716 F.2d 1155 (7th Cir. 1983), the Seventh Circuit similarly emphasized that courts may appoint counsel under exceptional circumstances, such as when a case involves complex legal issues, the party is unable to represent themselves effectively, or other specific challenges exist. If ever such a set of factors were true and applicable, it is a gross understatement that it would be this present matter.

Given the fact that the law and order in Washington state has come under collateral attack from the RICO activities permeating the county courts, and the fact that state police is nauseatingly incompetent and dysfunctional, the only avenue for justice for all the evil that petitioners' innocent, upstanding and highly contributing family has suffered is through a SCOTUS intervention. Manifest justice requires that this court, which holds the mandate from the founding fathers as the ultimate protector of the Constitution and rule of law in the country, take appropriate Sua Sponte action to bring these hideous monsters abusing the failed courts to justice, through referring this matter to the DoJ and the FBI. In *Calder v. Bull*, 3 U.S. (3

Dall.) 386 (1798), Justice Chase states upholding the great first principles of the social compact and manifest justice as judiciary's supreme goal.

X. CONCLUSION AND PRAYER FOR RELIEF

The lawfare, weaponization, scams and corruption⁴⁸ abusing the “woke insanity of DEI” is currently destroying all public trust in the Washington State’s Judicial System. It is afraid several so-called “courts” in Washington State have devolved into pathetically venal RICOs controlled by shady shysters⁴⁹, convicted pedophiles (eg: defendant Alex Toth^{50 51}), convicted felons and Mafia gangsters (eg: defendants Gary Culver⁵², Dean Kalivas^{53 5455}, Paul Lee et al) and vile, psychopathic, sadistic, satanic murderers (eg: defendants Ermin Ciric and Channa Copeland), who have inveigled the grossly incompetent, corrupt, morally depraved and racist unelected bureaucrats (i.e.so-called “clueless DEI freaks and queers” appointed by the “woke” Governor Inslee, cosplaying as “commissioners and judges”⁵⁶ - with their primary “qualifications” often being perverted sexual deviances), for shamelessly purloining millions of dollars in homes and fraud exorbitant attorney fees through fraud HOA sheriff sales and fraud Probate schemes.

Docket shows petitioners have documented not only the blatant theft of well over 10 millions of dollars in real estate equity and valuables, but also the brutal murder of an innocent, fully-alert mother visiting from India to spend time with her beloved, devoted son, after torturing her, blinding her right eye and keeping her incommunicado in excruciating solitary confinement for nearly five years without any contact with her children or family: explicitly for the vicious purpose of stealing millions of dollars from her scientist-entrepreneur, merit-based legal immigrant son's wholly self-built rich estate. As petitioners had direly predicted in our many desperate emails⁵⁷ to FBI, senators and other authorities to save her life, and in motions to various Federal Courts (e.g.: please see Page 2, in Appendix 4-I: Motion to Consolidate filed in the Nevada BK court to stop the home's sale: "A Planned Murder As soon as the Sale is Complete") seeking to repatriate her to India, she was poisoned immediately within hours after the theft of son's last remaining asset- a \$1.6 million, 6-bed golf course home in Snoqualmie. Kindly note that she never had any standing in her son's entirely self-built estate sourced from NASA, Microsoft, IBM & savvy real estate investments, as she had never transferred a single penny from India nor was she ever able/eligible to work in the USA- records prove she was always a dependant of her son while in the USA.

As is clearly obvious to any reasonable person, these matters are patently not civil, but heinous crimes such as 10+ millions of dollars of judicial scams and murder of an innocent mother, which **should have been prosecuted by the state.** It is well known that King County Superior Court is not a bona fide court but absolutely nothing more than a pathetic RICO headed by the notorious rascal "Commissioner

Judson”⁵⁸ in collusion with vile Real Estate Mafia Gangsters and certain shyster law firms. Various senior legal professionals⁵⁹ (including several in the Ninth Circuit) have called to end all federal funding for Washington State Courts RICO system, and various highly acclaimed international observers (such as the esteemed Canadian professor Dr. Jordan Peterson) have noted⁶⁰ Seattle is being “ruled by Psychopaths”, and that law and order^{61 62 63 64 65} in Seattle has collapsed, and people of color are now devoid of any meaningful police protection.

Due to DEI-induced incompetence, racism and corruption, Washington State’s legal system is now nothing more than a putrid criminal syndicate “by thieves, for thieves, to thieves”, as evidenced by such farcical “judgments”. Our desperate pleas for help⁵⁷ to the local police, FBI & all other avenues have also fallen on deaf ears.

The United States’ founding fathers envisaged a two-tier judicial system, despite all its quirks and inefficiencies, so that the Federal Courts can be a second line of defense for precisely such a diabolic situation wherein the state courts have been

infested⁶⁶ and taken over by criminals. Further, the WA-WD Federal Court as well as the Ninth Circuit Court of Appeals has hereto most egregiously played out the “Ostrich Response”, unwilling to recognize the fact many state “courts” have devolved into devious RICOs⁵⁹; hence effectively functioning as a single hive-mind, as partisan politics and in-group dynamics have prevailed over truth and justice.

Petitioners approached several State and Federal courts seeking to establish poor Omana’s federal treaty-bound^{67 68} right to return to her home country India as a visiting non-immigrant alien holding a B1/B2 tourist visa. Article 13 of the Universal Declaration of Human Rights adopted by the United Nations General Assembly in 1948 provides that everybody has the right to leave another country at any time and to return to their home country. There is no question Omana’s and her family’s constitutional (eg: Eighth amendment right against cruel and unusual punishment, which was what the 4+ years of illegal solitary confinement, scalding with boiling water when she begged for water, and blinding of an eye was for her- see Appendices 2:A-H & 4-E for nauseating details & photos), Federal Civil (42 U.S.C. §1983), Indo-US treaties-bound, and basic human (1948 UDHR, 1949 4th Geneva, 1966 ICCPR, 1969 Vienna) rights are being violated with wanton disdain: *a la* the Constitution, Statutes & Treaties were worth less than soiled toilet paper.

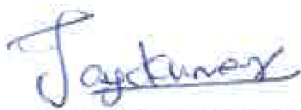

In light of all the above Satanic evil, we pray to this Honorable Court in humble genuflection to appoint counsel for murdered Omana, Krishna and his three businesses, and also us (family in India); order an FBI investigation into all these heinous crimes; as well as transfer venue to an unbiased district (preferably Northern District of Texas where Krishna is moving to permanently) so the matter

can be remanded to proceed to a fair trial in the divine interest of manifest justice and truth. The family can neither afford representation, nor can prosecute such a complex matter from outside the country as pro se, while the only petitioner currently staying in the country is disabled from cardiomyopathy and PTSD. Therefore only a meaningful intervention from this Honorable Supreme Court, to protect the integrity of the United States' judicial system, can provide us succor.
