

When she is on Dantrolene, she is sedated and unable to MOVE A SINGLE MUSCLE, ideal victim for any predator. Notice her broken lips, and also the bad blood vessels forming on right eye from no required follow up to the eye surgery with Dr. Chen: (206) 744 2020. She is complaining of a burning sensation in her eyes and is at risk of going completely blind from Ms. Channa Copeland's neglect. She never asks for any of her medical needs or care plan.

Her legs must always remain stretched - it causes immense intolerable pain for her to be cramped like this. Despite multiple requests, the staff at Paramount always leave her in this state, and to prevent screaming they sedate her.
